# COORDINATED STUDENT HEALTH SERVICES

MARCIA BYNOE, ARNP-BC, MSN, FNP, SNP
DIRECTOR, COORDINATED STUDENT HEALTH SERVICES

### Coordinated Student Health Services

### Mission Statement

Coordinated Student Health Services (CSHS) strives to foster growth, development, and educational achievement of our students by promoting their health and wellness in a safe supportive environment. CSHS embraces collaboration with staff, students, families and the community to achieve this goal.

## Purpose

- Provide an overview of the School Health Program Staffing Model
- Provide an understanding of staffing for 2019-2020 school year
- Identify the gaps in the current School Health Program
- Demonstrate the need for professional licensed (RN's) in all schools

## Overview of Student Health Services

- Communicable & Infectious Diseases Control Management
- State Mandated CORE Health Requirements
- Immunization Compliance
- Health Screenings For Students vision, hearing, scoliosis & BMI
- Nursing Services case management, health consultation & trainings
- Medically Fragile Services
- Chronic Disease Management & Care Coordination
- CPR/AED/First Aid Training American Heart Assoc. Training Ctr.
- Mental Health
- Health Partnerships
- Health & Wellness Promotion/Education, Community Outreach
- District-wide Medication Administration training & standards

# Differentiated Staffing School Health Model (DSSHM)

- Implemented in 2009-2010 school year
- Designed to meet the growing health needs of the student population while improving the utilization of funding
- Increase the number of schools and students receiving health services
- Decrease the number of students sent home from school, therefore increasing students academic time

## **DSSHM** Delivery Model

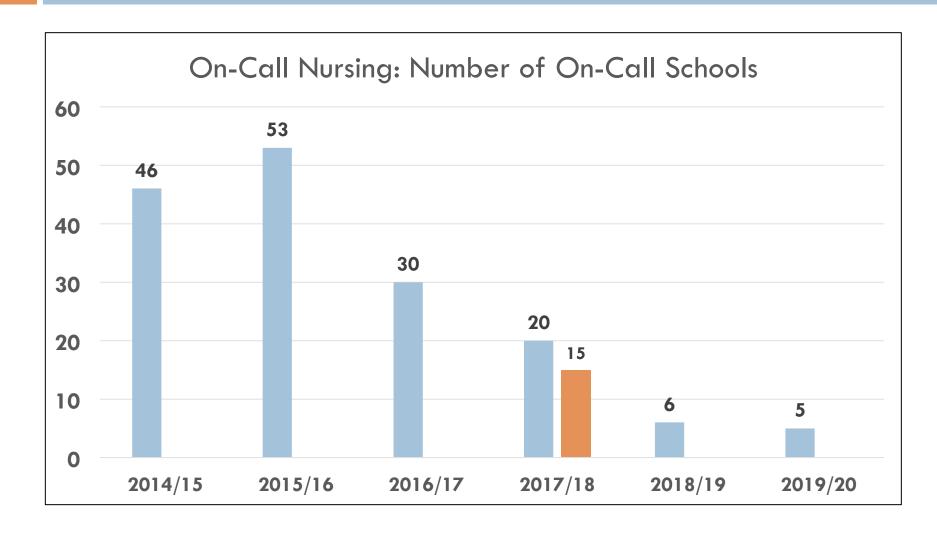

Model includes three levels of health services:

- RN/LPN's provide care of students with chronic health conditions/high priority health needs
- Health Support Technicians (HST's) with RN supervision provide care of students requiring basic health services
- On-Call available services to identified schools with RN consultation

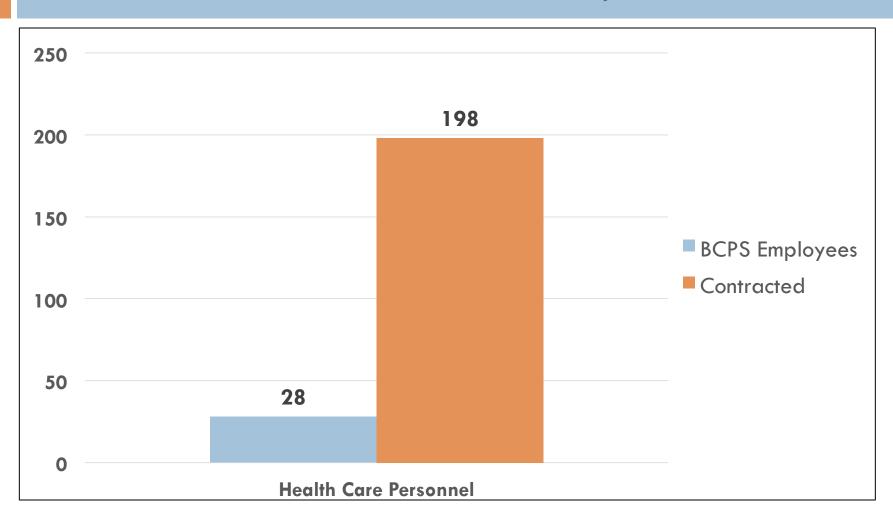

## School Health Partners

- Florida Department of Health Broward
- Children's Services Council (CSC)
- Nova Southeastern University
- Memorial HealthCare System
- Jersey College

## On-Call Nursing

# Health Care Personnel available in BCPS during 2019/20

## Summary of On-site Health Care Personnel & Funding Partners 2019 - 2020

On-Site Nursing Services	Funding Entity	Number of Schools	Number of Healthcare Personnel
*Contracted Agency RN's/LPN's	Exceptional Student Learning	84	85
(Chronic Health Program)	Support (ESLS)		
	(SBBC) & (504 funded)		
Clinic RN'S	Children's Services Council (CSC)	9	9
(Chronic Health Program)			
**Health Support Technicians	CSC	55	55
(Basic School Health Program)			
**Health Support Technicians	Florida Department of Health	45	45
(Basic School Health Program)	(FDOH)		
Clinic RN's/LPN's	FDOH	3	3
(Full Service)			
Clinic RN's/LPN's	SBBC	25	28
(Centers & Chronic Health			
Program)			
On-Call	FDOH	5	1
Total	226		226

#### **SUMMARY**

- \* Nursing Services for students with chronic health conditions are discontinued with changes in health needs of the student
- Medical Fragile students are not included in this summary. These students usually receive 1:1 nursing services. Currently there are 134 medical fragile students.
- \*\* Health Support Technicians are supervised by RN's at a 1:5 ratio. RN's provide staff trainings and IHCP & EAP for students' health care interventions
- FDOH provides an RN for the schools without on-site nursing services 5 schools (On-Call)

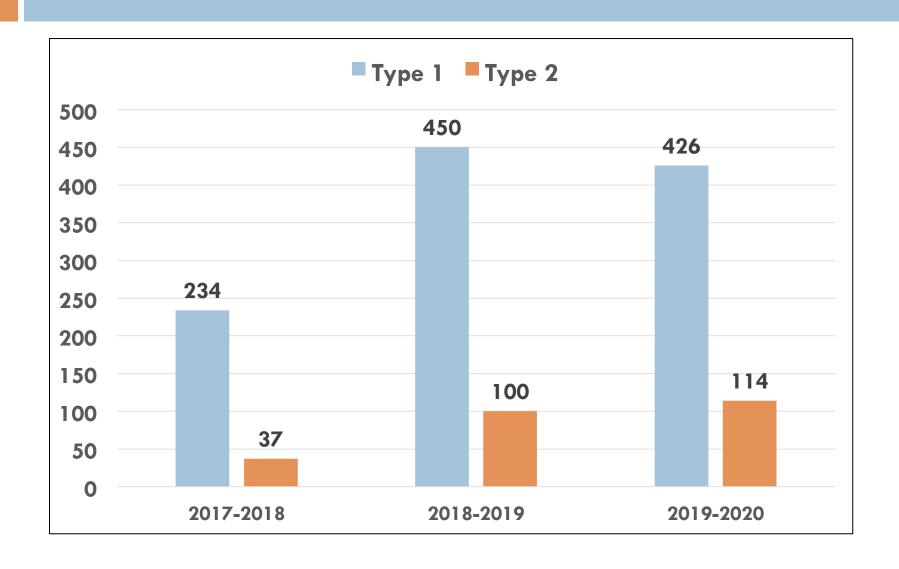

# Chronic Health Conditions July 2018 — June 2019 School Health Annual Report

### 69,252 students with Chronic Health Conditions in our schools

- ❖ ADHD/ADD 5,425
- ❖ Allergies (life threatening) 1,013
- Allergies (non-Life threatening) 40,025
- ❖ Asthma 19,837
- ❖ Autism spectrum disorders 6,029
- ❖ Bleeding disorders 210
- ❖ Cancer 120
- Cardiac conditions 1,465
- ❖ Cystic fibrosis 23
- Diabetes 644
- ❖ Seizure disorder 1,669
- ❖ Kidney disorders 127
- Mental/behavioral health conditions 1,003
- ❖ Sickle cell disease 553
- ❖ Others 2,457

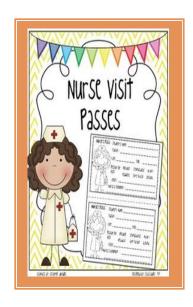

## Diabetes Trends in BCPS

## Gaps in School Health Services

- Increased number of students with chronic health issues/complex medical problems requiring a higher acuity level of care by a professional RN
- 100 schools assigned HST's (unlicensed personnel)
- 28 BCPS nurses
- 198 schools staffed with contracted healthcare personnel - creates lack of continuity and care coordination
- Requires additional oversight of contracted healthcare personnel by the BCPS District staff

## Health Services in Schools

- Average Student Health Room visits
  - Daily 78,443
- Average Medication Doses Administered
  - Daily 24,561
- Health Screenings 191,571
   (Vision, Hearing, BMI & Scoliosis)

## Why a Nurse?

- Nurse has a pivotal role to improve the health and education outcomes of students
- Promoting life-long healthy behaviors from an early age
- Reducing health risks & identify mental health conditions
- Identification & monitoring of student's health care
- Decrease absenteeism & improve learning
- Identify and respond to treatment and health care needs for children with chronic health conditions and acute care health care needs

## Registered Nurses (RN's) are needed in schools

- A student's health is directly related to his/her ability to learn
- Children with unmet health needs have difficulty engaging in the educational process
- RN supports student success by providing health care through assessment, interventions, referrals and follow-up
- RN addresses the physical, mental, emotional, and social health needs of students

#### The School Board of Broward County, Florida Estimated Financial Impact to Fund School-Based Nurses Based on 19-20 Average Salary & Estimated Fringe

	Number of Positions	Estimated Financial Impact (in millions)	
School-Based Nurse (one per school)	224	\$15.37	
Clinical Nursing Supervisor - (pay grade 25) <sup>2</sup>	6	0.65	
Clinical Nurse - (1:10 ratio, pay grade 23)1	22	1.54	
Substitutes (8 days per nurse)		0.40	
Mileage (Estimated \$1,800 per/yr. x 29 nurses)		0.05	
Total Estimated Cost	252		\$18.01
Less:			
Currently Funded Positions <sup>3</sup>			
ESE Special Programs	8	(0.55)	
Centers	9	(0.62)	
Turn Around Schools	2	(0.14)	
Medicaid-504	9	(0.61)	
Total Currently Funded	28		(1.92)
Other Revenue Children Services Council:			
(9) RN's (55) Health Support Tech ( HST)		(1.61)	
Florida Department of Health: (3) RN's			
(45) Health Support Tech (HST)		(1.30)	
Total Other Revenue			(2.91)
Net Financial Impact	224	_	\$13.18

Average Salary & Fringe for School-based & Clinical Nurses is \$68,605

<sup>&</sup>lt;sup>2</sup> Average Salary & Fringe for Clinical Nursing Supervisor is \$108,651

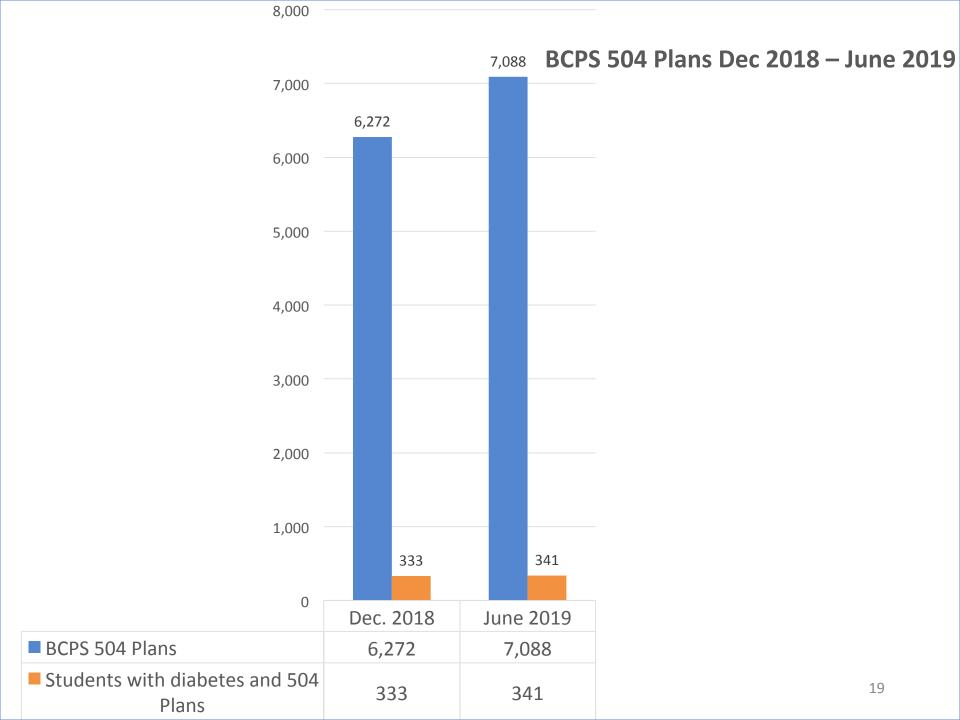

<sup>&</sup>lt;sup>3</sup> Includes positions that support entire school, not student specific.

## 504 PLANS

☐ # Students with Districtwide 504 Plans — 7,088

□ # Students with Diabetes 504 Plans - 341

□ Each student with a chronic health condition is assessed to determine if a 504 Plan is needed; if it is determined the healthcare personnel will followup with the 504 liaison at the school.

#### Five Ways a School Nurse Benefits the School

**Attendance - School nurses** improve attendance through health promotion, disease prevention and disease management. Students with a full-time school nurse have about half the student illness- or injury-related early releases from school where no school nurse is present.

**Academics** – Improved attendance means the healthy student is in the classroom and ready to learn. **School Nurses** enable better performance, which also contributes to reducing drop-out rates.

**Time – School nurses** save time for principals, teachers and staff. A school nurse in the building saves principals, teachers, and clerical staff a considerable amount of time that they would have spent addressing health concerns of students.

A school nurse in the building saves:

- Principals almost an hour a day
- Teachers almost 20 minutes a day
- Clerical staff over 45 minutes a day

**Staff Wellness - School nurses** improve the general health of staff. According to school reports, principals, teachers, and clerical staff are **VERY** satisfied with having school nurses in their schools for several reasons:

- Teachers can focus on teaching
- Office staff spend less time calling parents and sending students home
- Healthy staff means increased attendance and productivity

Accountability - School nurses help schools stay accountable.

- Promoting compliance with federal and state law mitigates lawsuits
- Advocating for adequate staffing aligns with Healthy People 2020 recommendations of the ratio of one school nurse per 750 well students (1:750)
- Preparing for emergencies saves lives and property
- Addressing student mental health links to academic achievement

**School nurses** are instrumental in the identification and referral to community resources for health risks and are often the only health professional who see students on a regular basis.

School nurses are responsible for:

- Significantly decreasing the amount of days missed due to asthma, the leading cause of school absenteeism, accounting for more than 14 million missed days annually
- Managing students with chronic conditions such as diabetes and seizures to allow them to stay in class
- Identifying and treating accidents and injuries
- Counseling students about physical and emotional issues

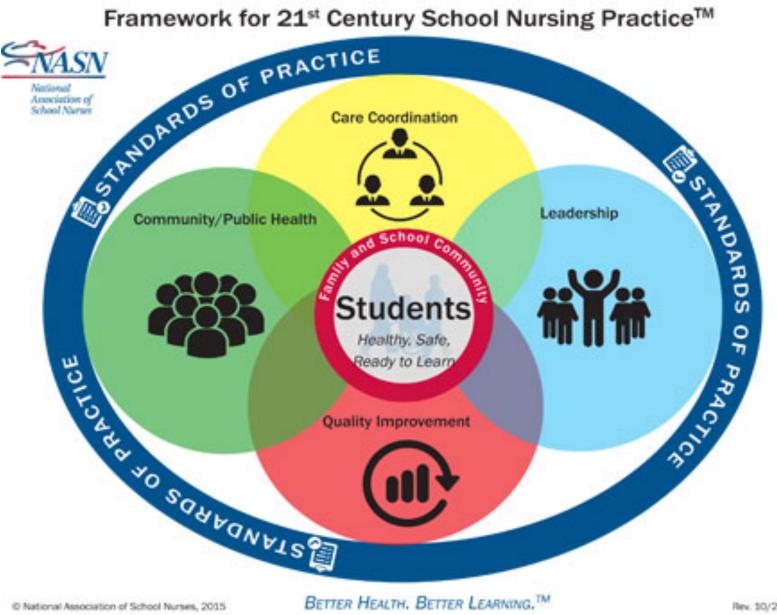

Healthy Children = Academic Success www.nasn.org

#### School Nurses Economic Value

- ✓ Provide health services that increase school attendance
- ✓ Prevent and control the spread of communicable disease
- Administer specialized services to students (medications, insulin pumps, ventilators, tube feedings)
- Verification of immunizations
- Screening and make referrals for vision, hearing, BMI
- Provide health professional input and direction for school and community policies and programs
- Educate students and staff on managing their own health and wellness
